

## 8300 series

### Light Industrial Mobile Computer

Rugged and lightweight, the highly programmable 8300 series delivers diverse data capture and communication capabilities that easily integrate with your information systems, while improving productivity in your workforce.

The 8300 series enables secure, accurate, real-time information delivery critical to keeping managers informed and optimizing performance in the warehouse, distribution center, and the stockroom.

# 8300 series

Light Industrial Mobile Computer

## Efficient supply chains mean better profitability

To maximize productivity and profits today, supply chains must be efficient, intelligently applying technology in the hands of workers. That calls for mobile industrial computers that bring the power of the company's business applications within reach of the workforce, while making it easy for them to complete their tasks.

The 8300 series light industrial mobile computers efficiently combine all the requirements a mobile workforce needs and IT managers demand. Application programmability, manageability, and communications options that easily and securely connect to back-end systems from nearly anywhere extend your automated business tools to workers. Ruggedness, scanning flexibility and accuracy, and ease of use enable users to accelerate productivity with a lightweight tool that works as hard as they do. Add CipherLab's Power Suite software development kit and you have a comprehensive solution to many of today's unique supply chain challenges.

- ▶ **Customize applications for unique needs**
- ▶ **Update and access data from "within the walls" and "beyond the fence"**
- ▶ **Match the scanner to your specific requirements, including RFID**
- ▶ **Easy to carry and use all day long**

## Smart solutions with immediate payoffs

### Reduce asset management burden

**Coca-Cola Amatil of Australia cuts asset recording labor by more than 75%**

Coca-Cola Amatil deployed 8300 series mobile computers in their Sydney warehouse to track over 13,000 vending machines and merchandising equipment. They leveraged CipherLab FORGE Application Generators to customize software for the 8300s, reducing the work from 40 person-days to 70 person-hours and saving thousands of dollars in labor expense.

### Improve retail efficiencies

**NISYST and CipherLab team up in UK to create a highly efficient retail management system**

Retailers benefit from 8370s running Nirvana Intelligent System's NPoS Point of Sale Solution. The integrated hardware/software solution enhances efficiency and accuracy of sales, ordering, stocking, and picking. Customer M1 Foods improved warehouse management, price verification, and price-change management. Wireless printing of shelf labels using the 8370's wireless LAN made the work easier and more efficient.

### Accelerate warehouse activities

**Taiwan grocery goods wholesaler and manufacturer RunStar streamlines warehouse processes, reducing workload from three employees to one**

RunStar chose the 8300 for its ruggedness and ergonomic design, and to make work easier. They got more than they bargained for when they deployed the 8300s to scan barcodes, check and verify orders, pick goods, and manage quantities in the warehouse. The new CipherLab mobile computers reduced the required labor by 66%.

## A Smart Investment for Supply Chain Solutions

### APPLICATION-READY FOR DIVERSE ENTERPRISE NEEDS

Coordinating critical procurement, assembly, and delivery functions requires a suite of mobile business and database applications and interfaces. The 8300's powerful CPU and up to 10MB of SRAM plus 2MB of flash memory enable you to deploy complex applications in a small, lightweight package, making it a powerful tool that's easy to use all day. Multiple scanning options—linear imager, choice of lasers, and RFID—plus unparalleled reading accuracy offer diversity for use in the warehouse, retail, mobile sales, and logistics.

### FLEXIBLE COMMUNICATIONS OPTIONS

Offering batch, WLAN, and BT capabilities, the 8300 series is designed for use “within the walls” and “beyond the fence” for non-connected and continually or occasionally connected environments. The 8300 series works the way you do, connecting you to data when and where you need it—on the warehouse or retail floor or at your customer's site.

### RUGGED TO THE CORE

The 8300 is engineered to last—delivering incredibly low TCO (total cost of ownership). Built to IP65 specifications for operation from 10° to 60°C in up to 95% humidity, the 8300 series keeps working under the harshest conditions. It's tough enough to withstand repeated 1.2-meter drops onto concrete and still deliver accurate performance day after day.

### WORKS ALL DAY, WORKS ALL NIGHT

The 8300 won't stop before your employees do. Its high-performance battery will last through multiple shifts between recharges, whether operating in batch or wireless mode. A built-in, rechargeable, back-up battery guarantees data security for 36 days, even when it's time to recharge.

### ACCELERATE DEVELOPMENT WITH The Power Suite SDK

CipherLab's Power Suite software development kit reduces development timetables and efforts with a comprehensive toolset for building and launching secure applications, whether they're constantly or occasionally connected, or run in batch.

# 8300 series

## Light Industrial Mobile Computer

	8300	8320*	8330	8370	
<b>Communication</b>	Options	Batch	Acoustic modem	BT Class 2 IEEE 802.11b/g	IEEE 802.11b/g
	Coverage <sup>1</sup> (line of sight)	30 cm / 12 in.	-	BT 10 m / 32.8 ft. WLAN 350 m / 1148 ft.	350 m / 1148 ft.
	Serial	IR / IrDA (115.2 Kbps)			
	RFID 13.56 MHz	Optional	-	-	Optional
	Supported standards	Mifare ISO 14443A, ISO 14443B, ISO 15693, ICODE			
	<b>Performance</b>	CPU / Memory	16-bit CMOS 2MB Flash ROM 2MB, 6MB, 10MB SRAM		
Operating power		Removable, rechargeable 3.7V 1800 mAh Li-ion battery			
Working hours <sup>2</sup>		270 hours		40 hours <sup>3</sup>	
Backup power		3.0V 7.0 mAh lithium battery Data retention 36 days			
Alerts		Programmable 1KHz to 4KHz buzzer, vibrator			
<b>Data capture</b>	Barcode scanning	Linear imager / Laser / Long-range laser			
	Reading range	Linear imager 5 to 29.5 cm / 0.16 to 1 ft. Laser 1 to 45 cm / 0.03 to 1.5 ft. Long-range laser 5 to 218 cm / 0.16 to 7.2 ft. (depends on barcode resolution)			
	Light source	Linear imager: 650 nm red LED Laser: Visible laser diode			
	Scan rate	Linear imager: 100/sec Laser: 100/sec Long-range laser: 35/sec			
	Scan angle	Laser: 47° Long-range laser: 42°			
<b>Physical characteristics</b>	Display	LCD 128 x 64 pixels, white LED backlight			
	Keypad	24 numeric or 39 alphanumeric rubber keys, LED backlit			
	LED	Dual color: green, red			
	Size and weight	170 x 77 x 47 mm / 6.7 x 3 x 1.9 in. (L x W x H) 290 g / 10.2 oz. configuration dependent			
<b>User environment</b>	Operating	Operating temperature -10° to 60°C / 14° to 140°F			
	Storage	Storage temperature -20° to 70°C / -4° to 158°F			
	Humidity	Non-condensed Operating: 10% to 90% Storage: 5% to 95%			
	Impact resistance	Multiple 1.2 m / 4 ft. drops onto concrete, 5 drops on each side / IP65			
	Electrostatic discharge	±15 kV air discharge; ±8 kV direct discharge			
	EMC regulation	8300: BSMI, CE, C-Tick, FCC, IC, MIC 8320: FCC 8330 and 8360: BSMI, CE, C-Tick, DGT/NCC, FCC, IC, MIC, TELEC 8370: BSMI, CE, DGT/NCC, FCC, IC, MIC, SRMC, TELEC			
<b>Programming</b>	CipherLab Power Suite FORGE Application Generator, including data transmission OCX, STREAM Wireless Studio, MIRROR Terminal Emulator, BLAZE C Compiler and BASIC Compiler				
<b>Accessories</b>	Charging and communication cradle, modem cradle, Ethernet cradle, 4-slot battery charger, USB cable, RS232 cable, keyboard wedge cable, AC/DC power adapter				
<b>8320* Acoustic coupler</b> <small>*Available in US only</small>	Data rate/format: 1200, O/E/N, 7/8, 1/2 stop bits Support for DTMF tone dialing Modulation type: Bell202 FSK(1.2 kHz±5%, 2.2 kHz±5%), V.23 FSK(1.3 kHz±5%, 2.1 kHz±5%)				
<b>Warranty</b>	1 year				

<sup>1</sup> Effective coverage depends on user environment and equipment deployment. It is highly recommended to conduct a site survey before actual deployment. <sup>2</sup> Based on one standard laser scan per five seconds with backlight off. <sup>3</sup> Depending on network traffic load.
